

SAY YES TO SYSPRO ERP FOR SUPPLY CHAIN MANAGEMENT

SYSPRO ERP is a secure and efficient ERP solution backed by 40 years of industry expertise that gives you the control you need and the experience you want along every step of your supply chain.

1 STRATEGIC PROCUREMENT

Business Challenge

Getting the best raw materials at the best prices from reliable suppliers.

SYSPRO Preferred Supplier

Recommends the selection of suppliers during the purchasing cycle.

Inventory Optimization

Increases forecast demand accuracy and that stockholding is accurate.

Request for Quote (RFQ)

Invites suppliers to tender on the supply of goods or services.

2 INBOUND

Business Challenge

Maintaining the correct stockholding and balancing supply with demand.

Inventory Management

Gives immediate access to inventory balances and open orders (purchase, work, and sales)

Inventory Optimization

Increases forecast demand accuracy, and ensures stockholding is up to date.

Bill of Materials (BOM)

Facilitates accurate expected costs against which actual production costs can be tracked.

Materials Requirements Planning (MRP)

Uses projected demand and supply in planning and creating realistic production, purchasing and supply transfer schedules.

3 OPERATIONS

Business Challenge

Manufacturing on time, minimizing waste, quality control, and meeting deadlines.

Work in Progress (WIP)

Provides complete control of the factory floor and the ability to see up-to-the minute work-in-progress information.

Manufacturing Operations Management (MOM)

Connects machines and other devices to digitize the factory and gain critical data for business optimization.

4 OUTBOUND

Business Challenge

To deliver the right product, in full, and on time.

Warehouse Management System (WMS)

Ensures goods are located correctly, stored in compliance with regulations, and accurately dispatched to the customer.

5 SALES AND MARKETING

Business Challenge

Providing wholesalers with exactly what they ordered at a mutually beneficial price.

Pricing engine with Trade promotions

Segments customers based on buying performance and places them on a structured price list, which allows identification and rewards of loyal customers.

6 SERVICE

Business challenge

Ensuring customer satisfaction and addressing any product or service issues.

SYSPRO Solution Return Merchandise Authorization (RMA)

Facilitates processing, management and analysis of product returns, replacements, credits, and repairs.

Customer Complaints

Allows for capturing, management, and effective resolution of customer complaints. Improves customer-centric behavior, driving customer retention.

Supply Chain Portal

An interactive web platform that facilitates online transactions between the enterprise and its suppliers and customers. It automates business processes and ensures transparency of supplier and customer transactions.

7 FINANCE

Business Challenge

To have a true, 360-degree picture of your company's financial health at any given time.

Accounts Receivable

Improves cash flow management by accumulating and managing customer activity and ensuring timely revenue collection and effective reporting.

Accounts Payable

Improves cash flow, provides timely, accurate and efficient control of invoice processing, the payment of bills, the application of discounts and the total expense analyses that help to maintain close relationships with suppliers.

General Ledger

Produces the enterprise's financial statements including the Balance Sheet, the Income Statement, the Cash Flow Statement, and associated financial reports such as Trial Balance.

8 DIGITALIZATION

Business Challenge

Making sure you keep pace with technological innovation as it happens.

OData

Provides customers, 3rd party software providers and systems integrators with a secure and consistent method of accessing SYSPRO data.

Mobile

SYSPRO Espresso is a mobile platform giving you access to all business data remotely as easily as if in the office or on the factory floor.

Enterprise reporting

Helps manage, analyze, and interpret all forms of data for analysis and decision-making within the business, without the requirement for 3rd party tools.

Business activity queries

A pre-developed Business Intelligence report provided in real time for accurate decision-making.

Our fit-for-purpose Supply Chain Management solution ensures organizational and internal operational control; connectivity across the factory floor, branches, sites, and regions; to enable faster and better decision-making.
